I. Introduction

Solidarité Thérapeutique et Initiatives pour la Santé (SOLTHIS) is an international health NGO that contributes to the strengthening of health systems to improve access to quality care in countries with limited resources and/or with vulnerable populations. SOLTHIS is registered and has been operating in Sierra Leone since 2011. Our teams have provided comprehensive technical support at both health facility, national, and community levels to improve the quality of HIV and TB care, and SRHR services.

II. Project description

The overall goal of the project is to reduce maternal and neonatal morbidity and mortality in Sierra Leone through improving access to quality Sexual and Reproductive Health (SRH) services and the expression of SRH rights for adolescents and young people aged 10-24 years in two districts (Western Area Rural and Western Area Urban) in Freetown. The project is funded by French Development Agency (AFD). SOLTHIS is responsible for the overall coordination of activities and will operate capacity-building for health professionals and improve the quality of care offered in public health centers while the local partner will roll out all community interventions. III. Audit objective

The project implemented by SOLTHIS, for which AFD is providing 80% of the financing, must undergo an external financial audit (interim and final) of the expenditure incurred under the project. The term “financial audit” used here refers specifically to an engagement to perform agreed-upon procedures regarding financial information in accordance with IFAC’s ISRS 4400 auditing standard; it is not intended to be a project financial audit (which would be performed under ISA auditing standards). The purpose of these terms of reference is to find an external auditor.

The selected auditor will be required to express a professional and independent opinion on the financial report drawn up by SOLTHIS for the expenditure incurred under the project. The auditor must:

- Comply with the list of checks to be carried out, presented in Appendix XI
- Ensure that the financial report complies with the format required by AFD
- Ensure that expenditure incurred during the project and reported in the financial report is eligible
- Give their opinion on compliance with the procedures listed in the Financing Agreement with AFD and in the Methodology Guide covering AFD’s CSO support mechanism (<https://www.afd.fr/fr/les-organisations-de-la-societe-civile>)
- Certify the financial report submitted to AFD.

IV. Audit organization

IV1. Audit methodology and approach

The consultant must prepare a methodological note explaining how the audit will be carried out. This must specify the sampling methodology designed to ensure that the expenditure to be audited is representative both overall and for each budget heading.

IV2. Audit location

Audit activities will mainly take place in Paris (Solthis HQ office) or Freetown (Solthis Sierra Leone Main Office). All supporting documentation will be shared electronically.

V. Audit process and scope

There are two stages to the audit.

V1. Scoping meeting with the auditor

This meeting must be held at the latest one month after signing the contract. The primary objective of this meeting is to ensure that SOLTHIS fully understands the scope of the audit and what it will involve. It should enable SOLTHIS to strengthen the internal procedures needed for ensuring contractual obligations are met. It should also make the job of the auditor easier, keeping any ineligible expenditure items observed upon completion of the project to a minimum. This meeting also provides the auditor with an opportunity to make recommendations to SOLTHIS at the start of the project.

V2. Execution of the interim and final financial audits and reports

The audit's main tasks will be to:

- Ensure that all expenditure has been incurred in accordance with the provisions set out in the Financing Agreement and in the Methodology, Guide covering AFD's CSO support mechanism, with particular attention to commitments relating to awarding contracts
- Check the eligibility criteria for expenditure reported in the financial report
- Check the resources allocated to the project and the correct allocation of expenditure by donor.

The main eligibility criteria for expenditure are:

- Expenditure was actually incurred during the period covered by the Financing Agreement
- Expenditure incurred was planned in the budget and is assigned to the correct budget category
- Expenditure incurred was necessary for project implementation
- Expenditure incurred and reported in the financial report was recorded and allocated to the project in the accounting system of SOLTHIS accounting systems in accordance with the accounting standards applicable in the country in which those partners are based and with normal accounting practices.

The audit must also check compliance with the set of procedures as presented at the review of the set of procedures analyzed by the appointed firm and approved by AFD (CSO compliance questionnaire) and compliance with the set of procedures as described and approved in the project questionnaire.

The auditor must perform all the checks included in the checklist in Appendix XI. If certain points cannot be verified, this must be stated in the management letter, with reasons provided.

VI. Reports to be provided

Following the scoping meeting described in section V1, the auditor must draft an independent scoping report outlining their main recommendations for the financial audit.

The financial audit described in section V2 must be carried out after the end of each project tranche (provisional end date for Tranche 1 **September 2026** / provisional end date for Tranche 2 **May 2028**).

The audit report for Tranche 1 must be submitted within three months (or six months for multi-year partnership agreements (CPP)) of the end of the phase, and the report for Tranche 2 within six months of the end of the project. The audit report must provide reasons for the checks on expenditure and comments on each of the checks carried out. It must state the amount of expenditure found to be ineligible (with comments for each item of expenditure in question). Competitive tendering procedures, reallocations and valuations must also be assessed and commented on.

The auditor must attach to the audit report: - The checklist (see Appendix XI2)

- A management letter summarizing the main findings of the expenditure audit report and outlining the main recommendations.

VII. Reference documents
